PROJECTS

[\[Link\]](#) E-commerce Website

This e-commerce platform offers features for both customers and admins. Customers can register, log in, view and search for products, manage their accounts, place orders, make payments, receive email notifications, and download or print bills. Admins can log in, view monthly orders and sales, manage product categories and furniture items, handle orders, and manage customer accounts.

[\[Link\]](#) Library Management System

The Library Management System enables users to search for books, view details, request reservations, and check borrowing history. Administrators can add, edit, or delete books, manage user accounts, and configure system settings like loan periods and fines.

[\[Link\]](#) Currency Converter

A currency converter tool that allows users to convert one currency to another using current exchange rates, helping with international transactions and travel planning.
